

FlashBox

You're not a digital designer, but don't let that stop you. Take charge of your photo universe with FlashBox, the only photo imaging tool that brings professional-level special effects to consumers of all ages. Create your own reality with designer-certified FlashXubes ("cubes") that bring beautiful, fully-realized designs and intuitive tools to your fingertips. Start with a selection of Xubes with designs for holidays, gardens, lifestyles, and more, and then add new Xubes from our Web site each month. Vacation in exotic lands. Travel through time. Try a facelift without the surgery. Turn the family photo into an impressionist masterpiece. Just ask yourself: Who do you want to be? Where would you like to go? Who do you want to show? The answers are endless with FlashBox.

Features

- Professional-level special effects, including flames, starbursts, confetti, and warping
- Spray-on effects tools so you can apply effects to precise areas of a composition
- Intuitive, drag-and-drop interface
- Three levels of help: LabelHelp names each tool or icon; HintHelp offers tips about how to use each tool; Help Library has detailed instructions about using every feature.
- Dozens of built-in projects for quickly making beautiful postcards, greeting cards, calendar pages, fliers, invitations, and more.
- Professionally-rendered frames, backgrounds, type and props make beautiful compositions a snap
- Thematic FlashXubes let you add new designs, new tools, and more fun to FlashBox by downloading from the Web
