

## nTITLE 2.3

Roll credits. When you need broadcast-quality type for film, video, or animation, you need nTITLE. The only 2D typography tool for film and video professionals using SGI platforms, nTITLE is easy enough to learn in an afternoon, yet gives you the power to create rolls, crawls, or keyframe animations. Explore infinite titling possibilities with 30 high-quality, anti-aliased fonts. Adjust lighting, texture, bevels, kerning, transparency, fills, outlines, transformations, and drop shadows-you can even fill text with video. Quick previews give you time to explore lots of possibilities.
