

Paint Alchemy 2

Now for Windows NT/95!

Paint. Really. Other products put colors and effects on the screen, but only Paint Alchemy takes the digital edge off your creations with a designer's touch. Transform your images with painterly effects like Colored Pencil, Impressionist, or Pastel. Choose among 75 built-in brushstroke effects and 36 brush styles to get your design underway, and then modify the look or create your own styles or brushes with Paint Alchemy's full complement of controls. Winner of four-star ratings from Publish and MacWorld, a 4-1/2 mouse rating from MacUser, and Digital Video's Award of Excellence.

Features

- Unique brushwork effects take the digital edge off images, turning Photoshop images into award-winning art
- 75 built-in styles
- Modify built-in styles or create your own and add them to style menus.
- Precision controls for brush angle, density, color, and other parameters
- 36 built-in brushes magnify your design options.
- Create your own brushes from any black and white PICT file
- Animate your effects in Adobe Premiere or AfterEffects

System Requirements

Windows: Windows 95 or Windows NT 4.0 on any PC with a 486 or faster processor and a CD-ROM drive with a minimum of 16 MB RAM (24 recommended), a 16-bit graphics card (24-bit recommended), and 8 MB of free hard disk space.

Macintosh: 68020 or newer processor, color monitor, System 7 or newer software, and at least 1 MB of RAM more than required by the host application.
